

เครื่องผลิตน้ำจากบรรยากาศ รุ่น CM_CDWA12000

ผลิตน้ำได้ 2,000 ลิตรต่อวัน

สนใจราคาส่งกรุณาติดต่อที่ 094 529 9265 หรือ Email : num.ptw49@gmail.com

รายละเอียด		Features
Input power	17.5KWH	1.Single sample with wooden box packing 2.New design with special heating exchange system. Combine heating exchange system to evaporator system. 3..Simple structure, easy for maintenance, decrease cost 4..Efficiency is 25-30% higher than normal single heating exchange system, and water production improving much at the same time 5.New design machines adopting to RO filtration system, high-power LED 6.New design machines purified water stored inside, no exposed to air, no second pollution 7.Water production based on standard working condition
Power supply	380V 50Hz,three phase voltage	
Production Capacity	upto 1000Liter/day @ 30° C & 80% RH	
Working Conditions	15° C - 45° C and 30% - 100% RH	
Filters	G3 Non-woven filter+PPF+GAC(pre carbon)+PPF+RO+UV	
Compressor	- Enclosed vortex compressor, 4qty - Phase-sequence Protection - Delay Protection - Hi & Low Pressure Protection - Overheat & Overload Protection	
Control Type	Thermal expansion valve	
Recycle Fan	High efficient centrifugal fan,4pcs	
Heat Removal Fan	Efficient axial flow fan,4pcs	
Refrigerent	R410A	
Net Weight	1000Kgs	
Machine Size (LxWxH)	2220*1557*2015mm	
Loading qty	3pcs/20ft, 7pcs/40HQ
